GENERAL INFORMATION

USE OF OFFICIAL TELEPHONES FOR PERSONAL BUSINESS

Telephones are not to be used by employees for personal messages except in case of emergency. Use pay stations located in convenient places in all buildings. Managers are expected to cooperate in securing strict observance of this instruction and each person having a telephone on his or her desk is responsible for its proper use.

LOCAL CALLING WITHIN THE DEPARTMENT OF DEFENSE

Be sure you have the correct number in mind. Consult the directory. Listen for dial tone and then dial the number.

692—693—694—695—696—697

When calling from one of the above exchanges to another one of the above exchanges dial only the last 5 digits of the number.

When calling from one of the above exchanges to an entirely different exchange in the Metropolitan Area not listed above, dial 9 and listen for dial tone*, then dial all 7 digits.

*(This dial tone will be continuous and will sound the same as the original dial tone. Please continue dialing).

The prefix for all 5 digit telephone numbers appearing in the DoD directory is "69".

INTERAGENCY CALLS

See "Other Government Agencies" Section for Agencies with Centrex.

1. To place a call to a government agency which has Centrex, dial "9" plus the 7 digit direct-in-dialing station number. If the desired direct-in-dialing station number is not known, refer to the "Other Government Agencies" section of this directory for the Centrex information number or refer to the Telephone Company directory for the listed number of the desired Agency.
2. Calls to other government agencies with Centrex are made at no extra cost.
3. Calls to other government agencies without Centrex cannot be made from restricted telephones.

CALLS TO OUTSIDE LOCAL NUMBERS FROM UNRESTRICTED TELEPHONES

Dial 9. Dial the desired number. Employees are reminded that telephones are to be used for Official business only. A charge is applied to all outside calls, except when calling another government Centrex.

AUTOMATIC VOICE NETWORK (AUTOVON)

Numbers listed in this directory are **not** autovon.

The Automatic Voice Network (AUTOVON) is the basic General Purpose switched voice network of the Defense Communications System. Autovon serves most major installations in CONUS and limited overseas areas. To avoid abuse of the Network and derive maximum efficiency users must be familiar with the system and cooperate fully. You can assist by following these guidelines.

Consult the AUTOVON listings in this directory or dial "O" for up-to-date information.

Send a message instead. Use AUTOVON only when your communications requires a time sensitive reply.

Restricted lines cannot be used to place AUTOVON calls.

Don't use AUTOVON for unofficial business. Unless the communication is official and essential and would stand the scrutiny afforded a commercial toll call, AUTOVON should not be used.

Keep the call short. Policy on AUTOVON use states that calls should be no more than approximately 5 minutes in duration. Outline your communication prior to making a call and then limit it to 5 minutes. If you are seeking information which is not readily available, ask the party on the other end to call back.

Avoid system saturation. Most AUTOVON calls from the DC area are attempted in the middle of the morning or afternoon. When this happens there simply are not enough circuits to handle every call. Attempt to place calls throughout the day. Many calls are completed faster with less preemption in the early morning or late afternoon when there is less competition for circuits. For AUTOVON access (CONUS only) Dial "8" listen for dial tone, then AUTOVON number.

AUTOVON acess to overseas is not available through the DTS-W system. Overseas calls must be placed through the appropriate military switchboard serving your activity or by commercial means.

If you reach a busy signal (60 IPMS) on the number called, hang up and redial. If you reach a fast busy signal (120 IPMS), this indicates that the local or network equipment is busy. Hang up try again later.

Preemption—your call was cut off by a higher precedence call. Hang up and dial again.

Provide callers with your proper prefix for the Autovon calls. Washington area numbers listed in this directory are not Autovon numbers. See page 15 for cross-reference information.

LONG DISTANCE TELEPHONE CALLS

For calls within CONUS and to Hawaii, Puerto Rico, and the U.S. Virgin Islands.

Facilities are maintained within the Department of Defense for the most economical and efficient placing of long distance calls. To keep costs at a minimum, military departments must insure that only official calls of short duration be made over the Department of Defense facilities.

1. Applies to calls from *Unrestricted* telephone numbers only.
2. To place an official long distance call, dial 9 plus the area code and telephone number desired.
3. Avoid system saturation. Most Long Distance calls from the DC area are attempted in the middle of the morning or afternoon. When this happens there simply are not enough circuits to handle every call. Attempt to place calls throughout the day. Many calls are completed faster in the early morning or late afternoon when there is less competition for circuits.
4. If a "circuits busy" recording is encountered, hang up and try your call later.
5. If the call is of such urgency that delays cannot be tolerated dial the Defense operator ("O") and tell her/him of the circuit busy condition and request her/his assistance.
6. Agencies will be provided a monthly statement of long distance usage which will include calling number, date, time connected, length of call (in minutes), cost of the call, city, state, and telephone number called.
7. These procedures do not apply to the 437 (Reston) exchange.
8. Long Distance Information (Area Code + 555–1212) may be dialed directly from unrestricted telephones. However, there is a premium charge for such calls and each call will be reflected on the monthly Telephone Usage Report.
9. Calls to Area Code "800" may be dialed direct from any DOD telephone. Calls to Area Code "800" are not billed to the telephone placing the call. However, details of Area Code "800" calls will be reflected on the monthly Telephone Usage Report.
10. Refer to page 6 for Area Code numbers most frequently called.

CONFERENCE CALLS

1. Conference Calls established for DTS–W Telephone Users via the DoD Operator can consist of a maximum of twenty two parties local, CONUS Long Distance and/or Overseas.
2. Conference Calls established for DTS–W via the "Meet Me" feature can consist of a maximum of twenty two parties, Local, CONUS Long Distance and/or Overseas. The "Meet Me" feature allows conferees to dial directly into the conference automatically at a pre-determined time without operator assistance.
3. To arrange a conference call, dial "O", ask for the DoD Conference Operator and provide the following information:
   a. Your Name—DoD Telephone Number—DoD Agency.
   b. Date/Time/Approximate duration of conference.
   c. Names/Area Code + 7 digit numbers of conference parties.
   d. Whether the teleconference will be operator-assisted or dialed direct ("Meet Me").
   e. DoD Telephone Number to be billed (if operator assisted).
4. Since the Autovon network has lines conditioned for preemption, its use on the conference system is discourage.
5. Conference Call Checklist.
   a. Before the teleconference, the meeting leader should send each participant the following:

      Time/Zone and location of teleconference.
      Agenda.
      Visuals, Charts, Graphs.
      List of Participants.

   b. The leader should contact all participants and arrange for each participant or a proxy to answer the telephone at the pre-determined time.

c. During the teleconference, the leader should:
Announce the agenda.
Have participants introduce themselves.
Establish speaking order.

d. Avoid use of extension telephone.

DOD OFFICIAL TELEPHONE CREDIT CARD USERS

Credit cards will not be used by DOD officials to make calls from their permanent duty station.

Personnel must be informed that no calls will be monitored without explicit affirmative instructions for each specific call.

REQUISITIONING TELECOMMUNICATIONS SERVICES AND EQUIPMENT

To request telecommunications service or equipment in the National Capital Region contact your agency's Telecommunications Service Control Officer, or if not known, call the Defense Telecommunications Service—Washington (Technical Services Division) on 694-0150.

MINIMIZE

MINIMIZE is a procedure used during periods of crisis or other abnormal periods to reduce the volume of record and long distance telephone traffic ordinarily transmitted electrically.

MINIMIZE applies to ALL users of DOD communications systems, including originators of card and tape traffic.

Procedures. When MINIMIZE is imposed, users of DOD electrical communications facilities must determine that:

1. The information to be forwarded is required to avoid a seriously detrimental impact on mission accomplishment or safety of life.

2. Electrical transmission is the only way to get the information to the addressee in sufficient time to accomplish its purpose.

Alternate Means of Communications. The US mail, the US Armed Forces Courier Service, or an individual as a courier or messenger should be used instead of using electrical means when MINIMIZE is imposed.

Authority to Impose and Cancel MINIMIZE. Commanders are authorized to impose MINIMIZE within their command or area of command responsibility unless specifically denied by appropriate higher authority. The Joint Chiefs of Staff impose it worldwide as well as in any specific area. The Joint Chiefs of Staff or the commander concerned, as appropriate, will cancel MINIMIZE when no longer required.

Authority. Allied Communications Publication (ACP) 121 US Supplement-1

NATIONAL COMMUNICATIONS SYSTEM VOICE PRECEDENCE SYSTEM

GENERAL INSTRUCTIONS

1. The National Communications System (NCS) Voice Precedence System which became effective 14 February 1970, is directed for use by all authorized users of the voice communications facilities of the Department of Defense. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, users must be familiar with the purpose to be served by each precedence category and the types of calls which may be assigned the respective precedences. Each authorized user should consider whether a call requires special precedence and exercise care not to request or utilize one higher than the circumstances require.

2. The NCS Voice Precedence System does not make specific provisions for the conduct of test and exercise calls. Those activities or individuals authorized or required to conduct such tests and exercises will employ precedences consistent with the nature of the test or exercise, and upon contacting the called party will identify the call as a FLASH test call, IMMEDIATE test call, or PRIORITY test call.

3. Calls of a given precedence will not normally pre-empt calls of an equal precedence. However, calls originated by the President of the United States, Secretary of Defense and Joint Chiefs of Staff can pre-empt FLASH calls in progress by application of their FLASH OVERRIDE capability. In addition, commanders of unified and specified commands when declaring either Defense Condition One or Defense Emergency and CINCNORAD when declaring either Defense Condition One or Air Defense Emergency may also pre-empt FLASH calls in progress by application of the FLASH OVERRIDE capability.

4. The precedence indicators listed on the following page are directed for joint use and specify, by military precedence designator, the relative order in which telephone calls should be handled based on the importance (content) of the call.

NATIONAL COMMUNICATIONS SYSTEM VOICE PRECEDENCE SYSTEM CHART

MILITARY PRECEDENCE DESIGNATOR	TRANSMISSION PRE-EMPTION	APPLICATION
FLASH	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls. May be pre-empted by the application of the FLASH OVERRIDE capability available to: (1) The President of the United States, Secretary of Defense and Joint Chiefs of Staff; (2) Commanders of unified and specified commands when declaring either Defense Condition One or Defense Emergency; (3) CINCNORAD when declaring either Defense Condition One or Air Defense Emergency and other national authorities as the President may authorize.
